

SATRIA DAFA PUTRA WARDHANA

- [+6285713090494](tel:+6285713090494) | Product Designer | Portofolio : <https://bit.ly/DafaPortfolio2026> | Pesanggrahan, South Jakarta

Aspiring Product Manager with a robust background in end-to-end UI/UX Design, Prototyping, and Front-End Development. I leverage this deep technical empathy and cross-functional expertise to effectively bridge design and engineering, drive data-informed decisions, and deliver optimized strategic business value.

PROFESSIONAL EXPERIENCE

Junior Project Manager, Sagara Asia Technology, Jakarta

Feb 2026 - Sept 2026

- **Portfolio Oversight:** Drove concurrent execution of 2 projects GCU (Warehouse Management System) and Aralia Enhancement, managing full project lifecycle, backlog prioritization, and cross-team coordination from inception to deployment.
- **High-Impact Project: Aralia Enhancement (Outsourcing Management System)**
 - **Strategy & Definition:** Led requirement gathering and scoping sessions to define 18 functional improvements across 5 key areas, including HCMS integration, data history tracking, payroll components (THR, compensation, incentive), and exit management for PT Pegadaian's outsourced workforce system.
 - **Execution & Management:** Authored the comprehensive Product Requirement Document (PRD), managed the feature backlog across 8 development sprints, and coordinated cross-functional execution between System Analyst, Designer, Engineering, and QA teams.
 - **Measurable Result:** Delivered end-to-end automation of supervisor data sync via HCMS integration, eliminating manual input for 100% of outsourced employee supervisor assignments, while structuring an exit management flow that reduced offboarding process gaps across all regional offices.

Project Manager Intern, Apple Developer Academy @ Binus, Tangerang

March 2025 - Dec 2025

- **Portfolio Oversight:** Drove product strategy and execution across a diverse portfolio, successfully contribute to delivering 4 applications and 2 games from ideation through to post-launch optimization.
- **High-Impact Project: Cococo App (Conversion Rate Optimization - CRO)**
 - **Strategy & Definition:** Led problem brainstorming and scoping sessions to diagnose core conversion bottlenecks. Defined solutions, including a strategic redesign of the dashboard and product details, alongside the addition of essential informational labels and descriptions.
 - **Execution & Management:** Authored the comprehensive Product Requirements Document (PRD), managed the entire task backlog, and drove cross-functional execution across all Design and Engineering teams.
 - **Measurable Result:** Spearheaded the implementation of a new solution with the objective of achieving a 30% conversion rate uplift within the first three months, successfully achieved the target and drove notable improvements.

Freelance Product Designer, ICANN Technologies Indonesia

(1 Year - Remote) Jun 2024 - Jun 2025

- **Design Delivery & Scheduling:** Executed the comprehensive UI/UX design for a Hospital Management System (HMS) web application, delivering one complete design module monthly and providing weekly status updates to the extended project team.
- **Design-to-Development Alignment:** Conducted regular design grooming sessions with the technology team to ensure clarity and feasibility. Validated development output against original design specifications and implemented necessary design adjustments based on technical input.
- **Iteration:** Ensured development adherence to design standards and maintained project velocity by proactively accommodating technical feedback through rapid, functional design iterations.

Fulltime UIUX Engineer, Nusantara Bina Artha

(2 Years, 9 Months) Feb 2022 - Nov 2024

- **User Research & Needs Analysis:** Conducted comprehensive user research (e.g., interviews, usability testing) to identify user needs, pain points, and usage patterns, translating insights into actionable design requirements.
- **Requirements Coordination:** Collaborated closely with Business Analysts (BAs) to align user requirements with business goals and technical feasibility, ensuring the final product addressed core needs outlined in the Business Requirements Document (BRD).
- **Design & Prototyping:** Designed user interfaces and experiences in adherence to the BRD, producing high-fidelity prototypes and design specifications for engineering hand-off and stakeholder review.
- **Front-End Development & QA:** Took ownership of the front-end implementation and development of designed features, followed by iterative testing with end-users to validate usability and ensure design integrity.

EDUCATION

Akademi Komunitas Toyota Indonesia, Karawang Associate Degree (D2) - Automotive Assembly Operations GPA : 3.46 out of 4.00	Jun 2017 - Jun 2019
Vocational Highschool (SMK) Negeri 2 Salatiga GPA : 3.14 out of 4.00	Jun 2014 - May 2017

SKILLS

Softskills	Cross-Functional Collaboration, Stakeholder Communication, Team Leadership & Cohesion, Strategic Decision-Making, Iterative Mindset, Problem-Solving
Hardskills	UI/UX Design & Prototyping, Front-End Development, User Research & Testing, Product Prioritization & Strategy, Project & Timeline Management, Technical Empathy
Languages	Indonesia (Expert), English (Intermediate)
Tools	Jira, Miro, Google Workspace, Figma, Framer, Affinity Diagram, Github, Gitlab, XCode, VSCode

CERTIFICATES

UI Design, Thinker Academy	Oct 2024 - Dec 2024
UIUX Design, Dibimbing.id	11 Jul - 15 Jul 2022
Product Mangement, Apiary Academy	Oct 2023 - Dec 2023
Android Developer, Glints Academy	Sept 2021 - Dec 2021

ORGANIZATION

Indonesia Design Research • MC of IDDR X Amarta • Member of group	Oct 2025 Feb 2023
UIUX Comunity	Aug 2022
